RECIRCULATING AQUACULTURE SYSTEMS. Recirculating aquaculture systems from the design and engineering of the equipment to the commissioning and installation at your fish farm or hatchery.

Recirculating Aquaculture Systems Manufacturing ...

Ras Abu Ali hatchery. Ras Abu Ali hatchery, Saudi Arabia. Llyn Aquaculture have designed all the Live feed and RAS fish rearing systems for this major new re-stocking hatchery currently under construction.

Llyn Aquaculture Ltd

Offshore aquaculture, also known as open ocean aquaculture, is an emerging approach to mariculture or marine farming where fish farms are moved some distance offshore. The farms are positioned in deeper and less sheltered waters, where ocean currents are stronger than they are inshore. Existing 'offshore' developments fall mainly into the category of exposed areas rather than fully offshore.

Offshore aquaculture - Wikipedia

Far North Queensland based Engineering Consultancy specialising in all structural and civil engineering. Maddocks and Associates opened its first office in Innisfail in 1990, providing civil and structural design services to a wide variety of clients ranging from local residences to large scale industrial work.

Aquaculture in Malaysia began in the 1920's with extensive polyculture in ex-mining pools of introduced Chinese carps, mainly the bighead carp (*Hypophthalmichthys nobilis*), silver carp (*Hypophthalmichthys molitrix*) and grass carp (*Ctenopharyngodon idellus*). In the mid 1930's, marine shrimp trapping ponds were first developed in Johore, the southern state of Peninsular Malaysia.
