It's been close to 2 years since my previous post on the subject of aviation. I've done a great deal since then - I obtained my sport pilot license, I'm now working towards my private pilot license, my main instructor moved away so she could become a test pilot for an aircraft manufacturer (which I brag about at any given opportunity), and I stumbled into helping out with two different ...

Psychological testing is the administration of psychological tests, which are designed to be "an objective and standardized measure of a sample of behavior". The term sample of behavior refers to an individual's performance on tasks that have usually been prescribed beforehand. The samples of behavior that make up a paper-and-pencil test, the most common type of test, are a series of items.
