I want to give the Woodway Curve a special shout out because it is a treadmill unlike any other. The Curve "breaks all the rules" because there is no motor and no buttons. It is manually powered by you, the user.

Woodway Curve Review - Treadmill Reviews 2018

I have only run on this Air Runner and the Woodway Curve. I liked the Curve, at local fitness center, but found that it was way expensive to consider owning one for home. I read online reviews of the various curved manuals and found this one to be at the almost tolerable price point. It arrived well packaged and undamaged.

Amazon.com : Assault Fitness AirRunner : Sports & Outdoors

The Woodway Curve is a non-motorized treadmill powered solely by a user's legs. This means the Curve has no top speed and users don't need to wait for the belt to get up to their desired speed. It also means that the user can burn a tonne more calories while engaging more muscle groups, providing a more effective workout than a conventional ...
