### **Yourhome Technical Manual**

Getting started. Your Home is your guide to building, buying or renovating a home. It shows how to create a comfortable home with low impact on the environment - economical to run, healthier to live in and adaptable to your changing needs.

### **YourHome | Australia's guide to designing, building and ...**

Climate change is arguably the greatest challenge faced by humanity. Global greenhouse gas emissions from fossil fuel use continue to grow each year, despite attempts to limit them through mitigation and energy efficiency measures. The effectiveness of these measures has been largely offset by population growth and increasing uptake of more affordable electrical appliances.

Passive solar technologies use sunlight without active mechanical systems (as contrasted to active solar). Such technologies convert sunlight into usable heat (in water, air, and thermal mass), cause air-movement for ventilating, or future use, with little use of other energy sources. A common example is a solarium on the equator-side of a building. ...
